The given credit line entitles you to obtain cash advance from any The Bank counter or any local banks' ATM and make payment for goods and services.

The available credit amount will be reduced by both the unpaid balance and the new charges made to the account for which the card member has not yet received a bank statement.

Remark: For available credit line calculation, please refer to Terms and Conditions of Using Citi Credit Card.

CASH ADVANCE UP TO 100% OF YOUR CREDIT LINE

With a Citi Credit Card, you may conveniently obtain a cash advance up to 100% of your credit line, depending on your financial history. Cash advance and total card spending must not exceed your available credit line at the time. You can withdraw cash advance at the following locations:

- Bank counters in over 200 countries that issue Visa or Mastercard cards
- The Bank counter
- ATMs around the world with the following logos: ATM Pool, VISA, PLUS, Mastercard, and Cirrus. Maximum withdrawal per transaction is dependent on the individual ATM machine used and your remaining credit line.

The Bank will charge a cash advance fee for every transaction. Interest will be charged starting from the date of cash advance withdrawal to the date when the withdrawn amount is fully paid regardless of full or partial payments.

Remarks: For the interest on cash advance and cash advance fee calculation, please refer to Terms and Conditions of Using Citi Credit Card

THE REVOLVING CREDIT

Citi Credit Card offers you the financial flexibility of choosing between making full or partial payments.

You can choose to pay your outstanding balance in full within the payment due date, which will reduce your outstanding balance to zero. After the full payment is received, if there are no further transactions before your next billing cycle, your available credit line for that month will be restored to your present credit line.

In addition, you can choose to make a partial payment at minimum payment due* displayed on the monthly statement.

The interest from your spending on Citi Credit Card will be calculated from the outstanding balance of previous statement plus the spending of current statement in which they are calculated from the posting date (Date that The Bank has settled the purchase amount done by your Credit Card at the merchant outlet) to the date of payment. The interest rate will be calculated based on The Bank's interest structure which is in accordance with the law.

With Citi Mobile® App, you can view your account details and manage your personal finances at your fingertips anywhere, anytime. For further clarification about revolving credit and minimum payment, please contact CitiPhone Banking.

Remarks: *Minimum monthly repayment of each cycle means the minimum amount that has to be paid to The Bank in each cycle for your outstanding balance, which is calculated by

- 8% of total outstanding balance as of that relevant statement cycle date OR
- 1% of outstanding Spending Amount (Spending Amount means retail and cash advance transactions, including over limit amount) + 100% of interest and fees charged on the monthly statement + Transactions from PayLite, PayLite Conversion on phone/ online, or Cash Advance on phone/online programs, that require to be paid in full amount displayed on the monthly statement, whichever is higher

Remarks: • The payment of the Minimum monthly repayment shall be subject to the payment hierarchy stipulated by The Bank. • In the case where the cardholder has an outstanding amount past-due in his/her Credit Card account, that amount must be paid in addition to the Minimum monthly repayment in full. • Please settle the overlimit amount in addition to the total minimum payment due amount through any of your Citi Credit Cards to continue using the card. The over limit amount is combined from all Citi Credit Cards. • This minimum payment due calculation will be effective from 1 August 2021 onwards

GRACE PERIOD OF UP TO 55 DAYS
